Here's a last chance to stock up!

## ★ ROSES

### HARDY CLIMBING ROSES

Your customers will have dozens of practical uses for Climbers. For example:

- |                           |                           |
|---------------------------|---------------------------|
| To cover trellises        | Among shrubbery           |
| To grace porches          | To twine on arches        |
| To train on stakes        | To improve entrances      |
| To hide unsightly objects | To trail over fences      |
| For hedges                | To beautify private roads |
| For banks                 | For specimens on the lawn |

“Cash in” on Climbers! Push them every chance you get; the more you sell the more money is yours. Count on your supply here and assure yourself and your trade of positively better plants easily turned into profits!

These are offered as two year, first grade, dormant plants, and will be shipped with tops trimmed in the usual fashion, except that patrons who require all branches uncut are asked to specify when ordering and remit \$2 extra per 100.

900 White Dorothy. HW. Creamy white. “White Dorothy Perkins”...	3.00	20.00

## HUGONIS—the rapid-selling Shrub-rose

### “Golden Rose of China”

“Best hardy yellow Rose we know of, and most popular species in America.”  
Dr. E. H. Wilson, Arnold Arboretum

A remarkably hardy shrub Rose with clear yellow, single flowers growing on the branches like golden hollyhocks in late April or early May, Hugonis makes a symmetrical bush about 6 feet wide and as high when matured. The reddish maroon canes are in themselves most attractive and the small acacia-like foliage turns purple in the fall.

You will find them splendid for specimens as well as desirable features for the shrubbery border, the driveway, the garden background, the corner, or a handsome hedge.

#### Vigorous dormant plants, field-grown (O. R.)
